EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David Lee on January 12, 2004. The application has been amended as follows:

-Please cancel claims 10-17.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art of record does not fairly teach or suggest a method of treating a patient at risk of loss of cardiac function by cardiac ischemia, comprising both, 1) Identifying a bridging region between the delivery vessel and ischemic area and targeting plural sites in the bridging region for angiogenic stimulation by either material delivery or energy stimulus, and 2) Sustaining an elevated demand by blush injury or exercise during the angiogenesis, or an agent-induced collateral-vessel-growing process (agents comprising biochemical or energy). Exercise on a sustained basis was known to aid in establishing collateral circulation. However, it is not taught for use directly during the induced angiogenic process, where a compromised patient was already at risk. In summary, because the prior art does not teach the key inventive features of, "targeting of bridging sites" and "sustaining demand during consequent angiogenesis", the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
